The Chairman of the Free State Territorial Committee, complained that the party took little interest in the election, and in many places were appointing no outside judges to watch votes, or taking other precontionary measures. The policy of voting under territorial authority is little reliabled by the old guard, and accounts for this apathy on their part.

No disturbance is anticipated on the day of election, (to-day) except, perhaps at the Wostport voting precinct—the Shawnee Mission.

The result is exceedingly doubtful, for the "Nationals" have the eards in their own hands. The little votes of Leavenworth had held a meeting and unanimously repudiated the National Bemocracy. Cause—the bogus Legislature disfranchising foreigners, although the Nebraska bill gave then the right of suffrage; and the law making it a fine to kidnap a white baby and doath to kidnap a migger, which has been dwelt upon recently with great effect.

The News rightly says that " it is of the high est importance to the People of this State, that the next Legislature shall be composed of honest and causble men." We echo this sentiment with all our hearts, and arge our friends everywhere to act upon it. The News gives sundry reasons for its advice, as for instance :

The wasteful extravag nee and shameful corruption of the present dovernor and Legislature has burdened us with enormous taxes, at a time when we are less table to pay to pay them, and prestrated the credit of our railroads at a time when they should have stood as high as any in the Union.

Our "enormous taxes" this year are just \$300.-000, against \$275,000 last year-an increase little enough compared with our additional city burdens, under Mayor Oross, about which the News has not a syllable to say. The idea that the last Legislature is responsible for the prostration of the "credit of our Rail Roads" is palpably absurd. The Legislature had nothing to do with any of our Roads, except the La Crosse, and ruined that, according to the News, by giving it a grant of Land which the Company estimated to be worth more than the entire cost of

Again, the News says : Again, the News says:
Some of the questions which will be brought
before the next legislature, and must be investigated will lead to startling developments in
traud, corruption and bribery. It will require
great courage and startling integrity, to nerve up
the members for the performance of these high
duties, against the biandishusents, threats and
bribes of those who are interested in cloaking
up and concealing the villainy which has stalked
about the Capitol during the past eighteern
months.

We will vouch for the Bepublican members voting for any and every "investigation" that may be demanded. They did so last winter, when the political friends of the News opposes and defeated "investigation." They did so, the previous year, when Gov. Bassrow vetoed the sill which the Legislature passed, and James B. Oppes vistained that neto. If there has been any " villainy" stalking about the Capitol during the post eighteen months, we shall look with entire confidence to the next Reunplican Legislatius to expose and punish it. Once more, the News asks :

They want to know why a Governor and legislature elected by clampaing against a Lunatic Asylum have contracted to build one upon the same site and plan of the one which they so re cently denounced? And why they have made provision for a Linnate, Asylim, onlargement of the Capitol, Asylim for the Blind, and House of Correction all at once? The State is prohibited from issuing boads for such purposes, and the expense is to ee met by direct taxation. Why: were they all provided for at the same seesing? Because the days of black republican miscule, in this State, are humbered. They have given their finends these contracts before packing up their durings—preparatory to taking a final leave of the Capitol.

The Lunseic Asylim a winding under the Baxcently denounced? And why they have me

srow Administration (which Mayor Cross sustained by his vote) would have cost the State lum, now under contract, is limited to \$100,000; so that the State will save under Republican management, about \$400,000 on this single-item The appropriations for the Lunatic Asylum Capitol Enlargement, Asylum for the Blind and House of Correction were all advocated by the leading presses of both parties (the News included) and voted for without distinction of party. They were indeed "provided for at the same seasion," but the expense divided between two years. And as the jobs were required to be let by contract, after due public notice, to the lowest bidder, the charge that there was favoritism or unfairness in the lostings, is palpably false.

So much for the specifications of the News, In which, as usual, there is scarce a grain of truth in each bushel of falsehood. Nevertheless, tho each and all of its charges against the Republican Executive and the last Legislature have been exposed and rejuted, we entirely concur with it in the warning cry to the People to LOOK TO THE LEGISLATURE

AN OLD FARRICATION .- The News, anxious discredit the Sentinel with our adopted citizens

The pretended zeal of the Sentinel for the saletwo years ago, the Know Northings made their terocious onslaught upon Foreigners and Catholics, the Scattnet did not come to their sid.

The sham Republican papers are publishing what they call the answer of the 46 Connecticut Clergymen to President Buchanan's letter.—

The treasonists had sent an array with Sharpe's rifles there to dethrous law and inaugurate civil war in its stead, but without success. last Congress.
It is well that the Pinery is a paper of moderte dimensions. The power of condensation exhibited in the above paragraph is such as to show double sized sheet would carry a terrible load for tatements, and some very foolish ones. The number of clergymen who signed the memorial to Mr. Buchanan was but five; not but that it would have been just as good and just as proper a memorial if all of the signers had been clergymen, but as a matter of fact, there were but five. The "laws" of the Logus invading Missourians vers no laws, and the editor of the Pinery will pared to submit peaceably to an immprion from hat popular democratic region, Town 25 Range 10, and the enactment of a new ret of ordinan ces for Stavens Point, without the consent of the

Now, another word ; the editor of the Pinery roos-there is no doubt of it-that the invasion of Kansas by the Missourisns, their election of a egislature, the code of laws which they made, and their burnings, robberies, and murders, constitute one of the most disgraceful records in our, whole national history, blacker, here mentions and nore aggravating conduct than anything which our forefathers suffered previous to 1776. And yet, knowing these things, the Pinery and the whole Democratic press, for partizan purposes, torget their humanity, their ayunpathy with the injured, and only deal in praises of the wrongdoers, -have only abuse and calumny for those who are wronged!

The Logic or Stavery.

The cooluess with which President Buchauan goes about the work of declaring. Slavery a paional institution has in it something inhuman and revolting. The logic is miserable as the conclusion is outrageous. Three sentences tell the story. He says:

"The Congress of the U. S. had most wisely "The Congress of the U. S. had most wheely declared it to bo the frue intent, and meaning of this act—the act organizing the Territory—not to legislate Slavery into any Territory, nor to exclude it therefrom, but to leave it to the people thereof, perfectly free to form and regulate, their domestic institutions in their own way, subject only to the Constitution of the U. S.

As a natural consequence, Congress has also prescribed by the same act that when the Territory of Kansas shall be admitted as a State, it shall be received into the Union, with or without slavery, as their Constitution may prescribe

out Slavery, as their Constitution may prescribe at the time or their admission.

Slavery existed at that period and still exists in Kansas under the Constitution of the U. S.—

This point has at last been decided by the high-est tribunal known to our laws. How it could have ever been scriously doubted is a mystery." That is-Congress, in the Kanses Nebraska Bill, intended to leave the people free to admit or exclude Slavery, as they pleased-subject only to the Constitution of the U.S., which carries Starery into all the Territories.

Slavery, as its Constitution shall prescribe, but the U. S. Constitution first establishes Slavery

Kansas shall be admitted with or without

It is so plain that Slavery exists now in Kansas as to be "a mystery that it could ever liave been doubted." Such is Mr. Buchanan's logic-such his decla-

party, acknowledging the Kansas Nebruska bill to have been a chect and a sham. Such is its bousted Squatter Sovereignty. And so, in the year of grace 1867, by the proclamation of the President and the approval of his party, this Government of the United States, formed, " to carablish Justice and secure the blessings of Liberty," stands before the world as a government whose flag carries Slavery wherever it waves! The Washington Republic.

The first number of this new republican journal has just been issued. It is under the management of Mr. George M. Weston, of Maine, a writer of great force and ability. In speaking of the principles that will obtain in the management of the Republic, the editor very pitnily alludes to the late demonstration of Mr. Buch. anan, and says that "alternately cowed by threats which he lacks the courage to resist, and tempted by the same promises of a re-election to the Presidency, which deluded Mr. Pierce, he has unquestionably devoted the whole power of his administration, at home and abroad, to a single interest, which his experience hitherto has taught Congress the admission of Kansas as a state, mitted to the people or not, Mr. Buchanan will do it. All our territories acquired, and to be acquired, being now declared in advance to be United States, Mr. Buchanan will stick at no cost in making acquisitions in that interest whether on the side of Cubs, or Mexico. He has gone too far in his career to recede, and will continunot maintain them to be such, unless be is pro- ally be driven on by the same fatality which destroyed his predecessor." In the same article he discusses the present bearing of the slavery question, and adds:

The people of this country will certainly no The people of this country will certainly absolute, without a contest, to a denial of their power to control their own property and their own domain. The great masses, the laboring man, those who subsist, not upon political corruption, but on the proceeds of their own bonest industry, will insist upon their right to occupy the national territories, free from the raisons and them they approximately all nearly shapes. The the national territories, free from the raisons and degrading competition of negro staves. The struggle will be a long and hitter one, but the issue will not be regarded as doubtful by those who have faith to the intelligence of the people to understand their interests, and their courage and resolution to maintain them. The question before the country is no longer confined to the single territories of the Union, and will affine and control the policy of acquiring additional territory. The Presidential declaration that the constitution carries negro slavery wherever the American flag miries negro stavery wherever the American flag goe, makes an era in polities. There can be no leace, and no arinistics, until that declaration is peace, and no arinistice, until that declaration is deprived of its fatal effect, by a civic revolution, like that of 1800, which shall restore the sovereignty of the people. The question before the country is not a sectional one, but a question of principle, of classes, and of interests. It is the old question of the few against the many, aristocracy against democracy. It involves the rights of the mesees who labor, impetilled by the pretensions of a class of expitalists, who wish to starve and degrada them, by forcing upon them the content and rivelry of an interior and serville race. On this question, while there are thousands the contact and rivelry of an interior and servile race. On this question, while there are thousands at the south who take the side of the respectability and advancement of free later, the number is even more numerous or those at the north, whose sympathies its in quite the opposite direction. The commoversy is not sectional, but social. In this great struggle, forced upon the country by the audacity of the men in power, we shall endeavor to do our part, in the post of duty in which discumptances have placed us.

He had taken the precention to provide himself with letters of introduction to respectable parties in this city, and by this means he soon formed the acquaintance of a young had, who, by the death of her father, had just been left sole heiress to a large estate. A warm attachment zoon sprung up between the two, and our young Englishman, one fine day, made the lady a formal tender of his hand and heart. The answer he received was the following: "I love you, and will marry you, but only on these lady a formal tender of his hand and heart-The naswer he received was the following: "I love you, and will marry you, but only on these conditions, and these only: let, you must stop drinking; 2d, you must pay your debts; 3d, you have squandered one lortune; you must set to work and make another." The lover untreated, but the lany was inexorable. Just then the gold fever broke out, and our hero determined, with-partless of time to try his lottune on the shorts
